| Classrooms                   | 12   |
| Gymnasiums                   | 1  |
| PAA, Library, Band and Other | Library and Kitchen  |

When you enter the school, you immediately gain a feeling of comfort and belonging. The administration office was part of a renovation that took place in 2014 which opened the space up and improved the utilization and flow.

Prekindergarten rooms were relocated to the original section of the school and received several upgrades including millwork and paint.

A barrier free washroom was created in the original area of the school.

A therapy room was added for work with individual students.

Up and down the stairs you will find the 1968 addition which includes a library, 2 classrooms up, 3 classrooms down as well as washrooms and mechanical space. This is Victoria Schools beautiful library.

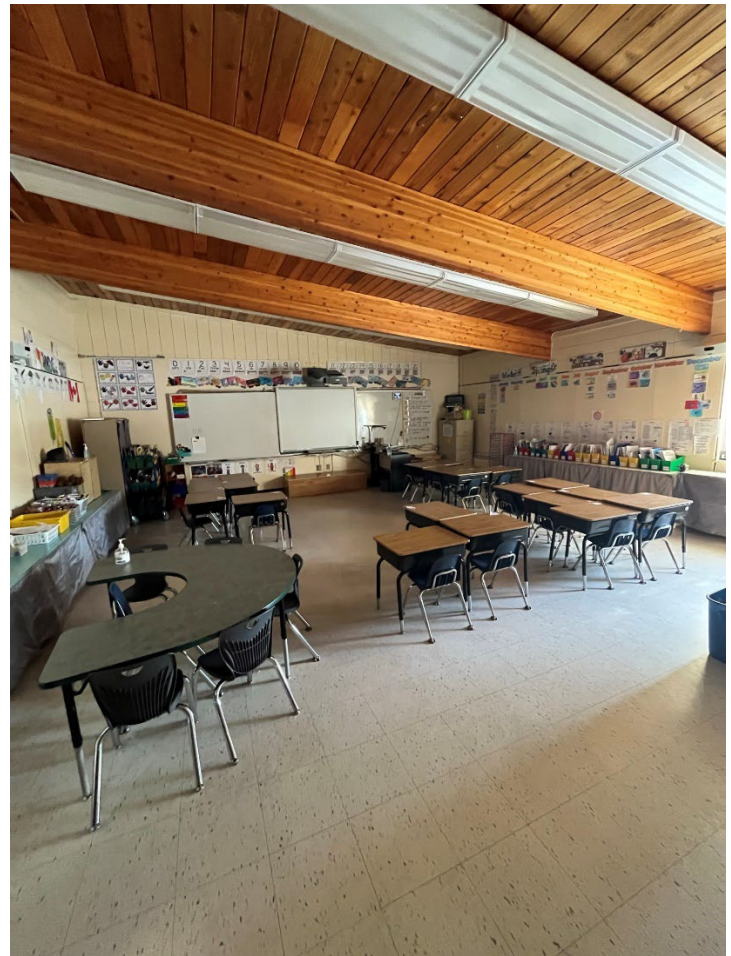

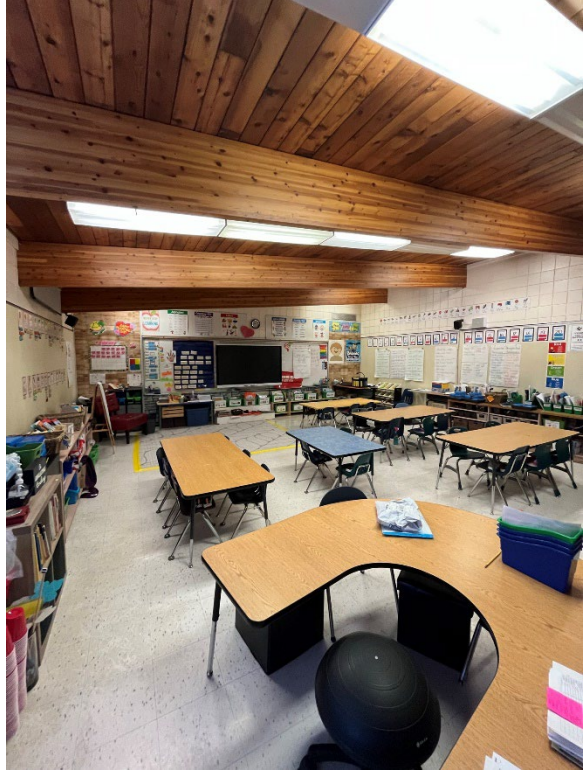

Classrooms from the 1968 addition

Classrooms from the 1982 addition.

The 1982 addition includes 3 classrooms, a barrier free washroom, and a staff room.

Additional highlights from Victoria School:

There is a Kitchen that is used to support the hot lunch program

The abundance of positive and welcoming messaging throughout the school.

There is a solar wall that helps heat the gymnasium – will be utilized with the HVAC renovation.

Despite being built in an era when accessibility was rarely considered the school faced the challenge by installing a chair lift that allows accessibility to 3 floors.

Under all this snow there is an amazing school yard with multiple playgrounds and a beautiful garden.

Along with all the other enhancements that took place in 2014 two modulating vertical boilers were installed servicing the entire school.

Recently completed projects:

- The existing phone system was replaced with a VOIP paging and phone system this past summer
- Interior gymnasium doors

Planned projects:

- Gymnasium Renovation:
  - Heating and ventilation system
  - Rubber sports floor
