

*Learning Without Limits ...
... Achievement For All*

Dear Kindergarten Parents,

At Good Spirit School Division we honor the family as a child's first teacher. We know that when we collaborate and work together, there is a positive impact on your child's learning. We look forward to walking alongside you as your child journeys through school.

We have included information for you to assist with transitioning your child into Kindergarten.

Good Spirit School Division believes in building strong foundations for bright futures. As such the Division is committed to providing high quality early learning environments for Kindergarten students to support readiness for learning.

Kindergarten is a place where your child will learn and grow; where you can expect a stimulating learning environment, active learning, and appreciation for diversity. The Kindergarten program advocates development of the whole child – social-emotionally, physically, intellectually, and spiritually.

For further information. . .

If you have any questions or would like additional information on Kindergarten in the Good Spirit School Division, please contact your local school Kindergarten Teacher or the Principal.
