Churchbridge is a K-12 facility with an enrolment of 187 students. It boasts a traditional design within the footprint of the school with classrooms up and down, home economics, science lab, library, and a gymnasium. Once you step into the school yard you will see innovative items such as a green house, garden space, an outdoor classroom, and a penned area currently occupied by a pair of alpacas, Bob and George.

We in Facilities enjoy supporting Amanda and staff with their innovative approach to education. We find it both challenging and rewarding. There is an obvious passion for providing the students with best education and we feel like another part of the community when teaming up with the staff finding ways to achieve their ideas. You can easily tell the Chargers are in good hands.
