

Welcome to Sturgis Composite School

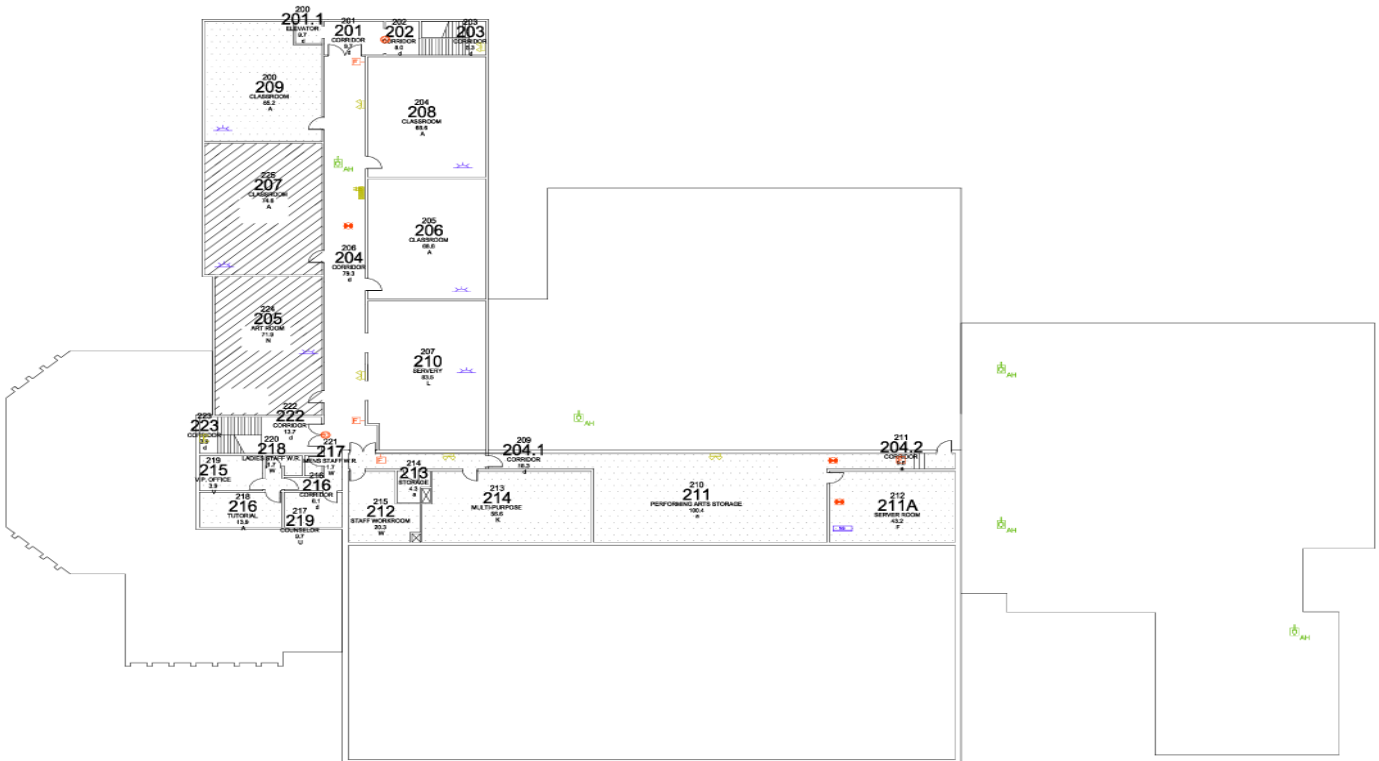

School Details	
Grade Configuration	K – 12
Size	4090 m ² (44,024 ft ²)
Original Build Date	1953
Addition(s)	1963 – Gymnasium and Practical Arts 1964 – Additional Classrooms 1978 – South Classrooms and Multipurpose Student Centre 1987 – Entrance, Administration Offices and Library
Enrollment as of September 30, 2021	160
Classrooms	12
Gymnasiums	1
PAA, Library, Band and Other	PAA, Library, Home Economics, and a Multipurpose Student Centre

Main Floor:

2nd Floor:

In 2017 Sturgis High School and Sturgis Elementary School were consolidated into one K-12 school, Sturgis Composite School. The original building was built in 1966 and used to hold over 400 students including a room and board complex for students who lived at the school during the week. Immediately prior to consolidation, the former school had an enrollment of only 78 students grades 5-12 and the whole second floor was decommissioned. Since consolidation the second floor has been renovated to accommodate the high school classes, the south end of the school has become the elementary wing, with the main floor east wing housing the middle year's classes, science lab and computer lab.

The front entrance was the first to be renovated and now proudly promotes the school colors of orange and blue.

A focal point of the school, the gymnasium underwent a significant transformation in the renovation.

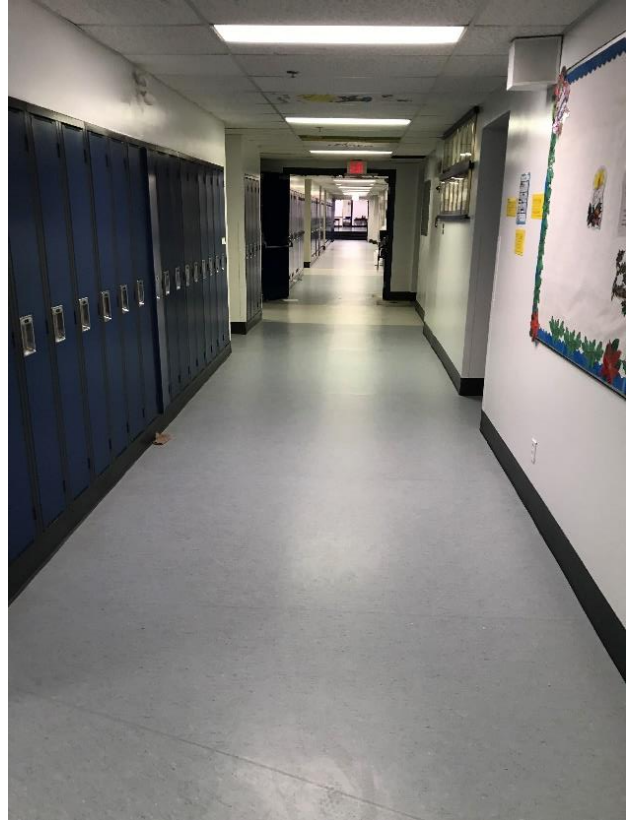

Gymnasium before:

Gymnasium After:

All of the hallways received new flooring and paint.

Classrooms received new flooring, paint, cabinetry, whiteboards, tack boards and blinds.

Elementary Classroom

High School Classroom

On the main floor the art room was transformed into an elementary commons area.

Before

After

The upstairs renovation included the creation of a high school locker room/commons area.

Other upgrades included the science lab and the computer lab.

The washrooms also received a complete renovation.

Not all areas were able to be renovated but below are some spaces to show all that Sturgis Composite has to offer:

The Band Room

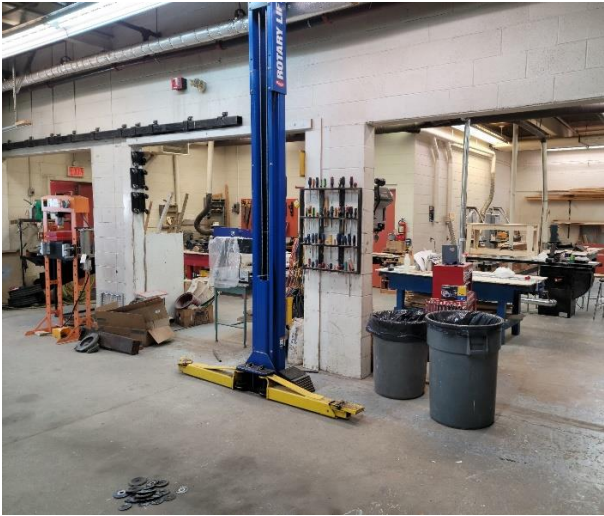

The Library

The Home Economics lab

The PAA Shop

School Yard

Bus Wash

Recently completed projects:

- Consolidation Renovation 2016/2017
- Bus Wash 2021

Planned projects:

- Wall/Roof Repair 2021/22 (Scheduled Summer)
- Phone System 2023/24
- Boiler Replacement 2024/25
- Roof Replace – Section 7 and 8 2024/25

From my prospective the past facilities regime, School Staff, Division Staff, SCC members, Board members and everyone else involved did an amazing job in the consolidation renovation project, restoring an aged and underutilized building to a facility the community can be proud of for years to come.
